SOMA·Q

Booth order guide

What to buy, where, what it costs, and when to order by. Event: Saturday, October 24, 2026. Prepared 7 October 2026.

Read this first. Prices and turnaround times below come from vendor web pages that my search returned, not from quotes. They change, several are "starting at" prices, and none of them has been confirmed against an order. I could not open any vendor's checkout. Before you pay, confirm the price, the production time, the shipping time and the cutoff hour on the vendor's own page or by phone, and ask for a proof.

What to order, and where

Item	Buy from	Why, and what I saw	File to send
Retractable banners (2) 32 x 80 in	FedEx Office (shop.fedex.com or in store)	You already know FedEx. Their page lists retractable banners in 32 x 80 in, starting at $189.99 each, with a case, upload-your-own-file, and a choice of standard plastic or deluxe metal stand. Two banners (the story and the proof) cost about twice that before options. Turnaround for retractables was not stated; indoor banners are listed as ready the same day or within 24 hours, which may not apply. Ask for a matte finish and a printed color proof; ask whether heavy ink coverage changes the price.	banner_story.pdf, banner_proof.pdf (or banner_proof_photo.pdf)
Table cover front 6 ft throw	WSD (wsdisplay.com) first; 4OVER4 as the backup. Ask FedEx Office if they offer one.	WSD lists a custom 6 ft throw at $97 (3 sided) or $128 (4 sided) for one, with a stated one business day after proof approval. 4OVER4 lists $225 for one with a four business day standard and 2 and 3 day rush options. DPI Direct lists $106.40 for a 6 ft 4 sided. I did not find a FedEx Office table throw page. The new cover is Light Teal with dark type, so heavy dark coverage is not an issue; still ask about finish and a proof.	table_front.pdf, resized to the vendor template
Backdrop optional	Westshade (westshade.com) or Vistaprint pop-up displays; FedEx Office indoor banner as the low-cost alternative	Pop-up backdrops advertised from about $499 to $579 (Westshade's own pages differ), with a stated 2 to 3 day turnaround. Vistaprint's pop-up displays ask for images at 150 dpi or higher. FedEx's indoor banners start at $64.99, with a maximum width of 60 in, so a FedEx banner can serve as a smaller wall piece. If your booth already has a wall or a pipe-and-drape, skip the backdrop and spend the money on the earned keepable.	backdrop.pdf (or the photo version), resized to the template
Posters 6 at 24 x 36 in	FedEx Office or Staples poster printing; foam board mounting from the same shop if offered	I did not find poster prices or mounting terms in my search, so get a quote. Buy the loop and the body map first (Tier 1); the other four are Tier 2. Ask for matte or satin, and for the two easel posters on foam board. Buy a tabletop easel for each, and 3/4 inch dot stickers in two colors for the body map.	poster_loop, poster_where first; then poster_shift, poster_outcomes, poster_progress, poster_capacity
Take-home cards 4 x 6 in, two sided	Staples same-day print, or FedEx Office postcards	Local pickup avoids shipping risk. Ask for heavy matte card stock and a proof of the QR side. Order the quantity you will realistically hand out.	card_individual.pdf

Counter sign 8.5 x 11 in	Staples or FedEx Office for the print; any office or event supplier for an acrylic sign holder	Cheap, same-day, and the highest leverage piece you will buy. Print two copies in case one is damaged.	counter_sign.pdf
Working with Soma-Q 8.5 x 11 in, two sided	Staples or FedEx Office	Front is for individuals, back is for teams. A short run (a few dozen) on heavyweight paper. This is the piece a serious buyer takes home.	leavebehind.pdf
Measurement at a glance 8.5 x 11 in, two sided	Staples or FedEx Office	Even shorter run, for organizational leads only.	handout_measurement.pdf
Business cards	MOO for the premium feel; Staples same-day as the backup	MOO is described in comparisons as stronger on premium and soft-touch stock, with a 50 card minimum and standard orders shipping in about 3 to 6 business days; one source put 50 Luxe cards at roughly $40. Staples offers same-day store pickup on orders before noon, in 14 pt, 16 pt and 38 pt stock, from $21.99 for 250 standard cards. FedEx Office's same-day cards are standard matte only; premium stock there takes about five business days plus shipping.	business_card.pdf
Earned keepable	See the swag section below	Only for contacts who give you an email or book a call.	Logo only

Swag recommendation

My recommendation is one earned item, not a table of giveaways. The cards go to everyone who talks with you. A single premium item goes to anyone who scans, taps in, or books a call, so the keepable is attached to a lead rather than handed out freely. This is my judgment from the evidence in the strategy packet, where industry studies report that apparel, outerwear and drinkware are kept longest, while pens and similar items are kept for months.

Option	Buy from	Notes
A. Insulated tumbler one color, logo or triangle mark	RushOrderTees (rushordertees.com) or 4imprint (4imprint.com)	RushOrderTees lists minimums from 6 on select tumblers up to 50 on others, a design preview before payment, and standard mug delivery of 9 to 12 business days with paid rush options. A 4imprint page I found (the Canadian site) offered 24 hour production on certain tumblers with a $40 rush charge, a $65 setup charge, and a 6 PM Central cutoff; I could not confirm the same terms on the US site. **Given the date, this option works only if you order by about October 9 to 12 with a rush option and a written delivery date.**
B. Reset card set a few desk-friendly practice cards	Staples or FedEx Office, same-day print	Lowest risk on timing and on message. Needs practices chosen from the Practice Library and checked against the research citations before printing, which I can draft for your review. This is my default recommendation for October 24.
C. Nothing beyond the card		A legitimate choice for a first booth. Put the budget into a larger banner and a better business card.

Timeline: seventeen days

When	What	Who
Wed Oct 7 to Fri Oct 9	Review the art. Send me changes. Decide on the photo, the backdrop, the swag and the phone number. Drop the official logos, your photo and the POPL QR image into the project's assets folder. Ask the designer to build the /go/ redirects (list in redirects_for_designer.md), and confirm the ebook signup, contact form and quiz capture will be live.	You, designer
Fri Oct 9	I rebuild final files. You approve. If you want tumblers, place that order today with the fastest option and get a written delivery date.	Both
Mon Oct 12	Order the two banners, table throw, backdrop (if any) and business cards from MOO. Request proofs.	You
Fri Oct 16	Last day to place any order with a multi-day production time and expect it by Oct 21 or 22.	You
Mon Oct 19 to Tue Oct 20	Deliveries arrive. Check colors against the proof. Confirm all /go/ links are live; scan every printed code on two phones on cell data.	You
Wed Oct 21 to Thu Oct 22	Same-day printing at Staples or FedEx Office: cards, counter sign (two copies), the Working with Soma-Q leave-behind, the posters, and the business card backup if needed. Test POPL tap and the POPL to Nimble sync with one live lead. Build the Nimble tags and follow-up sequence.	You
Fri Oct 23	Pack, using the list below. Charge the phone and a battery pack.	You
Sat Oct 24	Event. Capture every contact the same way. Same-day first follow-up that evening.	You

Packing list

Banner and stand. Table cover. Counter sign in two copies with stand. Cards in a visible holder. One-sheets. Business cards. Earned keepable. Phone with POPL and Nimble, battery pack and a short charge cable. Tape, scissors and a small tool kit. A printed copy of the QR URL list to rescue a failed scan. Tally sheet or the lead tracker open on a tablet.

Before you pay for anything

Check	How
The price, the production time and the shipping time	Confirm on the vendor's page or by phone. Ask whether the quoted time includes proofing and shipping.
Template and size	Download the vendor's template. If its size differs from the file, tell me the exact dimensions and I will rebuild.
Proof	Approve a digital proof, and for color-critical items such as the banners with their Deep Teal header band, ask for a printed or hard proof if time allows.
Every QR code	Scan from the proof, not from the screen.
Placeholders	Search each file for the character "[" so no placeholder prints.
