

Megan McDonald

Founder, Soma-Q

I led healthcare tech teams until burnout and a health crisis left me depleted, in pain and unable to sleep.

I rebuilt how I lead and live. Now I help leaders do the same.

HOW I WORK

A safe place for real work
Supportive and free of judgment, at a pace your system can sustain.

Structure you can measure
Assessment, targeted practices and weekly measurement.

Tools that fit your day
Five to twenty minute practices that stack into your schedule.

Body and mind together
Where physiology, emotion and thinking meet.

Alongside your other support
Never replaces medical or mental health care.

Direct and compassionate
Clear about what the work asks, kind about how hard change is.

WHAT WE DO

Soma-Q is a nervous system alignment practice. We train high-performing leaders to notice stress sooner, shift in the moment and recover faster.
