SOMA-Q

MEASURED EVERY WEEK

Five signs your nervous system is changing.

1. How readily you return to steady after stress
2. How early you notice your body's signals of pressure
3. How steady you stay under the week's emotional weight
4. How consistently you practice when no one is watching
5. How often you find moments of meaning and joy

Not whether you showed up.
Whether you changed.

Take the free Burnout Signal Check.
