WHEN PRESSURE HITS

Pressure happens. What do you do next?

Notice the signal. Locate it. Choose your next response.

REACTION

The loop runs again.

- Body tightens, mind races.
- Short with your people.
- Choices made from pressure.
- Running on empty.

RESPONSE

You choose what happens next.

- Body settles, mind clears.
- Present with your people.
- Choices made from clarity.
- Energy left at day's end.

Regulation is a skill. Recovery is a skill. Choice under pressure is a skill.
