- ☐ It comes and goes
- ☐ It is mostly offline ◆
- ☐ I cannot remember the last time I had full access ★ ◆

Turn over for your result. Not a diagnosis: a conversation starter.

YOUR RESULT

Follow the steps in order. Stop at your first yes.

1 Long-term Dysregulation

Did you tick "Several years or more" in question 1, AND any answer marked ★?

Years of chronic dysregulation. The pattern has started to feel like who you are.

Energy: running low · Clarity: often clouded · Joy: hard to reach

2 Chronic Dysregulation

Not step 1, but: did you tick "1 to 2 years" or "Several years or more"? OR a ▲ answer in question 2 together with a ◆ answer in question 5?

Your system has been in survival mode for months to years, and it has become the baseline.

Energy: depleted · Clarity: fragmented · Joy: offline

3 Early Dysregulation

None of the above?

Early signals are present and your system still has capacity. A good time to act, before patterns deepen.

Energy: strained · Clarity: interrupted · Joy: dimming
